

ARMY PUBLIC SCHOOL MIRAN SAHIB

DAY AND DATE: FRIDAY, 21 NOV'25

PLANTATION DRIVE ON THE OCCASION OF NCC DAY

On the occasion of NCC Day, the NCC cadets of APS Miran Sahib conducted a plantation drive within the school campus to spread environmental awareness and promote the importance of a green and clean environment.

During the drive, cadets planted a variety of beneficial and environment-friendly saplings such as Neem, known for its medicinal and air-purifying qualities; Camphor, which helps naturally purify the surroundings; Rudraksh, symbolising spiritual significance and ecological balance; Bay Leaf, valued for its culinary and medicinal uses; Moringa, a highly nutritious and fast-growing plant; Sitaphal (Custard Apple), which provides sweet fruits and shade; Peach, adding to biodiversity with its seasonal fruit; and Pomegranate, known for its rich nutritional and health benefits.

The cadets not only planted these saplings but also pledged to take regular care of them. This initiative aimed to instill responsibility, environmental protection, and community service among the cadets.
